# Bringing your Library to you

The Mobile Library Bus increases accessibility to our library service particularly for schools, early childhood centres and the elderly.

The Bus makes regular stops around Upper Hutt where all library users can return books and browse new titles offered aboard. Our Mobile Librarians can also help you find your next great read.

They also choose books for early childhood centres and read stories to children both on the bus and in the centres. This fosters positive early literacy experiences and enthusiasm for books and reading.
